A majority of the total number of Committee members then authorized shall constitute a quorum at any meeting and, in the absence of a quorum at any such meeting, a majority of the members present may adjourn the meeting from time to time without further notice other than announcement at the meeting, until a quorum shall be present. If a quorum is present, the Committee may take action through the affirmative vote of a majority of the members who are in attendance.
3. Subcommittees. The Committee may, to the fullest extent permitted by applicable law or regulation, form and delegate its authority to subcommittees of the Committee when it deems appropriate and in the best interests of the Company.
4. Reporting to the Board. The Committee shall report to the Board regularly, and not less than quarterly.
5. Charter. The Committee shall annually review and assess the adequacy of this Charter and recommend any proposed changes to the Board for its approval.

The Committee has the authority (without seeking Board or management approval) to select, retain and terminate special risk management, legal, financial, accounting, audit or other professional advisors (“Advisors”), as it may deem necessary, to assist the Committee in performing its responsibilities under this Charter. Such retention shall be coordinated by the Committee Chair with the assistance of the General Counsel of the Company (or his or her designee). E. Limitations Inherent in the Committee’s Role

It is not the duty of the Committee but rather the responsibility of the Chief Executive Officer of the Company and the Company’s senior management to identify and assess the Company’s exposure to risk. The Committee, however, shall meet with the Chief Risk Officer and Chief Compliance Officer at least quarterly to review the Company’s risk management, compliance activities and potential risk exposures. While the Committee is responsible for overseeing the risk management function, including reviewing with management the guidelines and policies that govern the process by which risk assessment and risk management is undertaken, it is not the sole body responsible for ensuring that the Company’s risk management function is carried out efficiently and effectively.
