**E*TRADE FINANCIAL CORPORATION ANNOUNCES
SECOND QUARTER 2013 RESULTS**

Company to exit market making business

Second Quarter Results

- *Net loss of \$54 million, or \$0.19 loss per share on total net revenue of \$440 million*
- *Total operating expenses of \$414 million, including goodwill impairment of \$142 million and restructuring charges of \$10 million*
- *Excluding impact of the decision to exit the market making business, net income of \$60 million⁽¹⁾, or \$0.21 per share⁽¹⁾*
- *Provision for loan losses of \$46 million*
- *Daily Average Revenue Trades (DARTs) of 150,000*
- *Net new brokerage accounts of 30,000*
- *Net new brokerage assets of \$1.7 billion; end of period customer assets of \$220 billion*

NEW YORK, July 24, 2013 – E*TRADE Financial Corporation (NASDAQ: ETFC) today announced results for its second quarter ended June 30, 2013, reporting a net loss of \$54 million, or \$0.19 loss per share, including \$142 million of goodwill impairment, and \$10 million of restructuring charges. Excluding the goodwill impairment, the Company recorded net income of \$60 million⁽¹⁾, or \$0.21 earnings per share⁽¹⁾. This compares with net income of \$35 million, or \$0.12 per share in the prior quarter, and net income of \$40 million, or \$0.14 per share in the second quarter of 2012. Total net revenue of \$440 million for the second quarter of 2013, compared favorably with \$420 million in the prior quarter, and was down from \$452 million in the second quarter of 2012.

During the second quarter, the Company decided to exit its market making business. As a result, the Company classified the market making unit as held-for-sale during the quarter and impaired the entire amount of the associated goodwill, resulting in a \$142 million impairment charge, before tax. This goodwill impairment is a non-cash charge and has no impact on the Company's tangible equity or regulatory capital position. The non-deductible nature of this charge and the impact of other state deferred tax items due to the decision to exit the market making business resulted in a consolidated effective tax rate of -14 percent for the quarter. Excluding this impact, the Company's effective tax rate was 37 percent.

“The second quarter was reflective of how well-gearred the E*TRADE model is for improvements in the operating environment, as our normalized income demonstrated marked growth from prior periods. Our customers remained engaged, and we continued to grow assets and accounts, while delivering record account retention,” said Paul Idzik, Chief Executive Officer. “I am pleased with the team’s solid performance, as we sharpened our focus on delivering an exceptional customer experience, while identifying opportunities for efficiency. Additionally, our decision to exit the market making business underscores Management’s intensifying focus on our core customer franchise and the desire to concentrate our efforts on areas that directly support the core of the Company. As we go forward, I am exceedingly confident in our prospects for our customers, our business, and our shareholders.”

E*TRADE reported DARTs of 150,000 during the quarter, an increase of one percent from the prior quarter and an increase of eight percent versus the same quarter a year ago.

At quarter end, the Company reported 4.6 million customer accounts, which included 3.0 million brokerage accounts. Net new brokerage accounts were 30,000 during the quarter compared with 30,000 in the prior quarter and 46,000 in the second quarter of 2012. Brokerage account attrition for the quarter matched a record low for the Company at 8.4 percent annualized.

The Company ended the quarter with \$220 billion in total customer assets, compared with \$219 billion at the end of the first quarter and \$193 billion from the year-ago period.

During the quarter, customers added \$1.7 billion in net new brokerage assets. Brokerage related cash increased by \$0.9 billion to \$35.6 billion during the period, while customers were net buyers of approximately \$0.3 billion of securities. Margin receivables averaged \$5.7 billion in the quarter, flat sequentially and up two percent year over year, ending the quarter at \$6.0 billion.

Net operating interest income for the second quarter was \$243 million, up from \$241 million in the prior quarter and down from \$279 million a year ago. Second quarter results reflected a net interest spread of 2.35 percent on average interest-earning assets of \$40.2 billion, compared with a net interest spread of 2.30 percent on average interest-earning assets of \$40.9 billion in the prior quarter.

Commissions, fees and service charges, principal transactions, and other revenue in the second quarter were \$177 million, compared with \$164 million in the prior quarter and \$154 million in the second quarter of 2012. Average commission per trade for the quarter was \$11.10, compared to \$11.30 in the prior quarter, and \$10.68 in the second quarter of 2012.

Total net revenue in the quarter also included \$20 million of net gains on loans and securities, net of impairment, compared with \$15 million in the prior quarter, and \$19 million in the second quarter of 2012.

Total operating expenses for the quarter were \$414 million, including \$142 million of goodwill impairment and \$10 million of restructuring charges. Excluding the second quarter’s goodwill impairment, as well as restructuring and severance charges from the second and first quarters, core operating expenses declined \$21 million sequentially, from \$283 million⁽²⁾ to \$262 million⁽²⁾. As of the end of the quarter, the Company’s cost reduction program had been substantially completed, reducing annual run-rate expenses by approximately \$95 million, net, comprising

\$110 million in targeted reductions, offset by a larger than anticipated investment in enterprise risk management of \$15 million.

Total assets ended the quarter at \$45.0 billion, up slightly from the prior quarter, while average assets declined sequentially by \$0.7 billion, as the quarter's deleveraging actions were offset by customer activity. The Company noted that its period end wholesale borrowings were temporarily increased by approximately \$0.5 billion, to support increased customer activity during the last week of the quarter. This temporary increase was reversed during the first week of the third quarter.

The Company's loan portfolio ended the quarter at \$9.6 billion, contracting approximately \$0.5 billion from the prior quarter. Second quarter provision for loan losses of \$46 million was up from \$43 million in the prior quarter, which included a \$13 million benefit from a settlement with a third party mortgage originator.

Net charge-offs in the quarter were \$50 million, a decrease of \$18 million from the prior quarter. The allowance for loan losses ended the quarter at \$451 million, down \$4 million from the previous quarter.

For the Company's entire loan portfolio, special mention delinquencies decreased 14 percent sequentially, and total at-risk delinquencies decreased 17 percent versus the first quarter. As compared to the year-ago period, special mention delinquencies declined 23 percent and total at-risk delinquencies declined 28 percent.

As of June 30, 2013, the Company reported consolidated Tier 1 leverage and total risk-based ratios⁽³⁾ of 6.4 percent and 15.8 percent, respectively; increasing from 6.0 percent and 14.8 percent in the prior period. The Company's consolidated Tier 1 common ratio⁽⁴⁾ ended the quarter at 12.2 percent, improving from 11.2 percent in the prior period. E*TRADE Bank ended the quarter with Tier 1 leverage and total risk-based capital ratios⁽⁵⁾ of 9.5 percent and 22.9 percent, rising from 9.3 percent and 21.9 percent, respectively, at the end of the prior period.

Explanation of Non-GAAP Measures and Certain Metrics

Management believes that tangible book value per share, corporate cash, EBITDA, adjusted EBITDA, interest coverage, adjusted interest coverage, Bank earnings before taxes and before credit losses, E*TRADE Bank Tier 1 common ratio and E*TRADE Financial ratios are appropriate measures for evaluating the operating and liquidity performance of the Company. Management believes that adjusting GAAP measures by excluding or including certain items is helpful to investors and analysts who may wish to use some or all of this information to analyze the Company's current performance, prospects and valuation. Management uses non-GAAP information internally to evaluate operating performance and in formulating the budget for future periods.

Tangible Book Value per Share

Tangible book value per share represents shareholders' equity less goodwill (net of related deferred tax liability) and other intangible assets divided by common stock outstanding. The Company believes that tangible book value per share is a measure of the Company's capital strength. See endnote (9) for a reconciliation of this non-GAAP measure to the comparable GAAP measure.

Corporate Cash

Corporate cash represents cash held at the parent company as well as cash held in certain subsidiaries that can distribute cash to the parent company without any regulatory approval. The Company believes that corporate cash is a useful measure of the parent company's liquidity as it is the primary source of capital above and beyond the capital deployed in regulated subsidiaries. See the Company's financial statements and "Management's Discussion and Analysis of Results of Operations and Financial Condition" that will be included in the periodic report the Company expects to file with the SEC with respect to the financial periods discussed herein for a reconciliation of this non-GAAP measure to the comparable GAAP measure.

EBITDA

EBITDA represents net income (loss) before taxes, depreciation and amortization and corporate interest expense. Management believes that EBITDA provides a useful additional measure of the Company's performance by excluding certain non-cash charges and expenses that are not directly related to the performance of the business.

Adjusted EBITDA

Adjusted EBITDA represents net income (loss) before taxes, depreciation and amortization, corporate interest expense and impairment of goodwill. Management believes that adjusted EBITDA provides a useful additional measure of the Company's performance by excluding certain non-cash charges and expenses, including impairment of goodwill, that are not directly related to the performance of the business

Interest Coverage

Interest coverage represents EBITDA divided by corporate interest expense. Management believes that by excluding the charges and expenses that are excluded from EBITDA, interest coverage provides a useful additional measure of the Company's ability to continue to meet interest obligations and liquidity needs. See endnote (11) for a reconciliation of this non-GAAP measure to the comparable GAAP measure.

Adjusted Interest Coverage

Adjusted interest coverage represents adjusted EBITDA divided by corporate interest expense. Management believes that by excluding the charges and expenses, including impairment of

goodwill, that are excluded from adjusted EBITDA, adjusted interest coverage provides a useful additional measure of the Company's ability to continue to meet interest obligations and liquidity needs. See endnote (11) for a reconciliation of this non-GAAP measure to the comparable GAAP measure.

Bank Earnings Before Taxes and Before Credit Losses

Bank earnings before taxes and before credit losses represents the pre-tax earnings of E*TRADE Bank's holding company, ETB Holdings, Inc. ("Bank") before provision for loan losses, gains on loans and securities, net, net impairment and losses on early extinguishment of wholesale borrowings. This metric shows the amount of earnings that the Bank, after accruing for the interest expense on its trust preferred securities, generates each quarter prior to credit related losses, primarily provision and losses on securities. Management believes this non-GAAP measure is useful to investors and analysts as it is an indicator of the level of credit related losses the Bank can absorb without causing a decline in E*TRADE Bank's excess risk-based capital. See endnote (12) for a reconciliation of this non-GAAP measure to the comparable GAAP measure.

E*TRADE Bank Tier 1 Common Ratio and E*TRADE Financial Ratios

E*TRADE Financial ratios, including Tier 1 leverage, Tier 1 risk-based capital and total risk-based capital ratios, are based on the Federal Reserve regulatory minimum well-capitalized threshold. E*TRADE Bank's and E*TRADE Financial's Tier 1 common ratios are defined as the Tier 1 capital less elements of Tier 1 capital that are not in the form of common equity, such as trust preferred securities, divided by total risk-weighted assets. Management believes these ratios are an important measure of E*TRADE Bank's and the Company's capital strength. See endnotes (3), (4) and (19) for reconciliations of these non-GAAP measures to the comparable GAAP measures.

It is important to note these metrics and other non-GAAP measures may involve judgment by management and should be considered in addition to, not as a substitute for, or superior to, net income (loss), consolidated statements of cash flows, or other measures of financial performance prepared in accordance with GAAP. For additional information on the adjustments to these non-GAAP measures, please see the Company's financial statements and "Management's Discussion and Analysis of Results of Operations and Financial Condition" that will be included in the periodic report the Company expects to file with the SEC with respect to the financial periods discussed herein.

(3) The Tier 1 leverage, Tier 1 risk-based capital and total risk-based capital ratios at E*TRADE Financial are Q213 estimates based on the Federal Reserve regulatory minimum well-capitalized requirements. E*TRADE Financial is not currently subject to capital requirements; however, the implementation of holding company capital requirements are expected to become effective in 2015 as a result of the Dodd-Frank Act. Management believes these ratios are an important measure of the Company's capital strength and accordingly manages capital against the current capital ratios that apply to bank holding companies in preparation for the application of these requirements. The Tier 1 leverage, Tier 1 risk-based capital and total risk-based capital ratios are calculated as follows (dollars in millions):

^(a) The Company is continuing to include TRUPs in E*TRADE Financial's Tier 1 capital due to the regulatory agencies announcement of a delay in the implementation of the TRUPs phase-out.

^(b) Under the regulatory guidelines for risk-based capital, on-balance sheet assets and credit equivalent amounts of derivatives and off-balance sheet items are assigned to one of several broad risk categories according to the obligor or, if relevant, the guarantor or the nature of any collateral. The aggregate dollar amount in each risk category is then multiplied by the risk weight associated with that category. The resulting weighted values from each of the risk categories are aggregated for determining total risk-weighted assets.

(4) The Tier 1 common ratio at E*TRADE Financial is a Q213 estimate and is a non-GAAP measure. Management believes this ratio is an important measure of the Company's capital strength. The Tier 1 common ratio is calculated as follows (dollars in millions):

	Q2 2013	Q1 2013	Q2 2012

(6) Reflects elimination of transactions between Trading and Investing and Balance Sheet Management segments, which includes deposit and intercompany transfer pricing arrangements.

(7) Amounts and percentages may not calculate due to rounding.

(8) Operating margin is the percentage of net revenue that results in income (loss) before other income (expense) and income taxes. The percentage is calculated by dividing income (loss) before other income (expense) and income taxes by total net revenue.

(10) Enterprise net interest spread is the taxable equivalent rate earned on average enterprise interest-earning assets less the rate paid on average enterprise interest-bearing liabilities, excluding corporate interest-earning assets and liabilities and customer cash held by third parties.

(11) Interest coverage represents the ratio of the Company's EBITDA to its corporate interest expense. Adjusted interest coverage represents the ratio of the Company's adjusted EBITDA to its corporate interest expense. The interest coverage ratio based on the Company's net income (loss) was (1.9), 1.2, and 0.9 for the three months ended June 30, 2013, March 31, 2013, and June 30, 2012, respectively.

(12) Bank earnings before taxes and before credit losses represents the pre-tax earnings of E*TRADE Bank's holding company, ETB Holdings, Inc. ("Bank") before provision for loan losses, gains on loans and securities, net, net impairment and losses on early extinguishment of wholesale borrowings. This metric shows the amount of earnings that the Bank, after accruing for the interest expense on its trust preferred securities, generates each quarter prior to credit related losses, primarily provision and loss on securities. Management believes this non-GAAP measure is useful to investors and analysts as it is an indicator of the level of credit related losses the Bank can absorb without causing a decline in E*TRADE Bank's excess risk-based capital^(a). Net impairment	0.6	1.2	5.3
Bank earnings before taxes and before credit losses	<u>\$ 162.4</u>	<u>\$ 128.9</u>	<u>\$ 153.9</u>

^(a) Excess risk-based capital is the excess capital that E*TRADE Bank has compared to the regulatory minimum well-capitalized threshold.

^(b) Non-bank loss represents all of the Company's subsidiaries, including Corporate, but excluding the Bank.

(13) The brokerage account attrition rate is calculated by dividing attriting brokerage accounts, which are gross new brokerage accounts less net new brokerage accounts, by total brokerage accounts at the previous period end. This rate is presented on an annualized basis.

(14) Customer cash balances held by third parties are held outside E*TRADE Financial and include money market funds and sweep deposit accounts at unaffiliated financial institutions.

(15) Net new customer assets are total inflows to all new and existing customer accounts less total outflows from all closed and existing customer accounts. The net new banking assets and net new brokerage assets metrics treat asset flows between E*TRADE entities in the same manner as unrelated third party accounts.

(16) Delinquent loans include charge-offs for loans that are in bankruptcy or are 180 days past due which have been written down to their expected recovery value. The following table shows the total amount of charge-offs on loans that are still held by the Company as of the periods presented (dollars in millions):

Total charge-offs	<u>\$ 732</u>	<u>\$ 743</u>	<u>\$ 747</u>

(17) Includes unpaid principal balances and premiums (discounts).

(18) The TDR loan performance detail is a subset of the Company's total loan performance. TDRs include loan modifications performed under the Company's modification programs. Beginning in Q412, loans that had been charged-off due to bankruptcy notification were also considered TDRs.

(19) The Tier 1 common ratio at E*TRADE Bank is a Q213 estimate and is a non-GAAP measure. Management believes this ratio is an important measure of E*TRADE Bank's capital strength. The E*TRADE Bank Tier 1 common ratio is calculated as follows (dollars in millions):

The resulting weighted values from each of the risk categories are aggregated for determining total risk-weighted assets.

(20) E*TRADE Bank excess capital amounts are Q213 estimates based on the regulatory minimum well-capitalized threshold. Below is a reconciliation of beginning to ending E*TRADE Bank excess risk-based capital for the quarterly periods presented:

	Q2 2013	Q1 2013	Q2 2012
Beginning E*TRADE Bank excess risk-based capital (\$MM)	\$ 2,200	\$ 2,064	\$ 1,514
Bank earnings before taxes and before credit losses	162	129	154
Provision for loan losses	(46)	(43)	(67)
Loan portfolio run-off ^(a)	40	42	55
Margin decrease (increase)	(22)	6	(52)
Tax impact, including changes in disallowed deferred tax assets	8	(68)	22
Other capital changes ^(b)	25	70	60
Ending E*TRADE Bank excess risk-based capital (\$MM)	<u>\$ 2,367</u>	<u>\$ 2,200</u>	<u>\$ 1,686</u>

^(a) The capital release from loan portfolio run-off includes the decrease in risk-based capital required for the one- to four-family, home equity and consumer loan portfolios.

^(b) Represents the capital impact related to changes in other risk-weighted assets.

(21) Modifications are a subset of TDRs, and represent loan modifications performed under the Company's modification programs. They do not include loans that have been charged-off due to the Company receiving notification of bankruptcy if the loan has not been modified previously by the Company. The following table shows the reconciliation of total TDRs that had a modification and those which the Company received a notification of bankruptcy (dollars in millions):

	Q2 2013	Q1 2013	Q2 2012
Modified loans	\$ 1,268	\$ 1,285	\$ 1,335
Bankruptcy loans	201	207	-
Total TDRs	<u>\$ 1,469</u>	<u>\$ 1,492</u>	<u>\$ 1,335</u>

(22) The total expected losses on modifications includes both the previously recorded charge-offs and the specific valuation allowance.

(23) Excludes loans to customers on margin.

(24) Gross-up for tax-exempt securities.

(25) Includes interest earned on average customer assets of \$11.2 billion, \$9.5 billion, and \$3.6 billion for the quarters ended June 30, 2013, March 31, 2013, and June 30, 2012, respectively, held by third parties outside E*TRADE Financial, including money market funds and sweep deposit accounts at unaffiliated financial institutions.
